

MOC Mobile

Operational Sustainability, LLC® (OS) offers the **OESuite™ MOC Mobile Module** as part of our integrated comprehensive mobility platform. **MOC Mobile** helps companies initiate changes in the field from any mobile device.

MOC is closely associated with Pre-Startup Safety Review (PSSR). With **MOC Mobile**, users can input critical information at the point of work.

Users can initiate changes and ensure that required personnel are aware of the proposed change. MOC reviewers can quickly access and approve proposed changes, and can attach PSI as needed to provide additional information. Everyone who needs to see the status of the change – can. After the review and approval of the proposed change, field personnel can be looped back into the process to execute the change.

MOC Mobile works both offline and online, automatically syncing necessary data whenever a user is back online. Our advanced analytics, alerts, and notifications keep everyone involved informed and enhance overall safety.

Extended OESuite™ Modules

PSSR / Operational Readiness

Operator Logs

Work Management / CMMS / EAM

Document Management / Redlining

Mobilizing Your Workforce

With the **OESuite™ Mobility platform**, it's easy to customize your own screens and workflows within our flexible framework to:

- Create email notifications and custom checklists
- Define mandatory or optional fields, text, and drop down field types
- Enable field value descriptions
- Add, remove, or re-sequence data fields and create workflows
- Supports bar coding / RFID
- Create your own security hierarchy
- Take pictures, annotate drawings
- Leverage GPS
- Enables data logging

We connect your workforce to asset, compliance, engineering, operations, automation, supply chain, and EH&S information where and when its needed. Applications include:

- Operator rounds
- Work management
- Inspection management
- Task / action item management
- Work instructions
- Condition assessment
- Work permitting
- Pre-Startup Safety Review (PSSR)
- Management of Change (MOC)
- Incident management
- Audit management
- Waste management
- Training
- Redlining

OESuite™ digital forms work across various devices
