Driving Operational Excellence™

Why Operational Sustainability® is the Right Choice

Tired of hiring consultants or buying solutions that don't deliver on their promises?

It's time to explore a strategy-driven, holistic, approach that delivers a way to move your facilities from separate, siloed departments to a resilient organization focused on sustainable Operational Excellence (OE). Our intuitive, interoperable software and expert advisors will simplify your transition to a real-time, mobilized, risk-aware culture. **If you want to enhance internal risk visibility, overall efficiency, safety, profitability, compliance, operations, and reliability, let's talk.**

Strategy

We believe in strategy first. Our **experienced advisors help** identify and address cultural, compliance, and business performance needs. Then, we put our consultants' 30+ years of average industry experience to work developing a strategy and roadmap for each client. OS doesn't just provide a piece of the puzzle; we deliver a cohesive, comprehensive solution.

Consulting

Our expert consulting services help you **obtain, maintain, and sustain** a clear picture of your risks, assets, operations, workforce, and activities. We develop fully integrated solutions that fit your culture, can help change your culture, and help you drive toward your goals. Our Intelligent Operations methodology is the most efficient way we know of to deliver predictable production with a focus on meeting customer and project commitments leading to OE.

Software

Our **OESuite® software** delivers **real transformation with sustainable outcomes** to improve processes and integrate systems, proactively manage risk, mitigate threats, and help you achieve operational excellence. Our expert care and service team will help your facility achieve the promise of OE at a sustainable cost.

Content

OS is constantly adding new technical content to our library to empower your team with proven industry expertise. With preconfigured work processes, policies, procedures, field guides, self-assessment tools, audit protocols, Asset Strategy libraries, Asset Health indicators, and so much more, our content can **accelerate your journey** to operational excellence.

Assess → Strategize → Develop Plan → Technology: Implement, Integrate, & Train → Transform Culture. Achieve OE. → Sustain Results

Why OS?

Often companies talk about "breaking down the silos," but they don't often look at the reality–cross-silo sharing of information is happening already–it's just happening inefficiently at best and inaccurately at worst. OE, at its core, eliminates this problem. We use Enterprise Loss Prevention (ELP)—or reducing risks and preventing losses—as a pathway to achieving OE. Our ELP methodology delivers a blueprint that provides the desired level of interoperability to achieve OE.

OE requires a data-driven, holistic, integrated approach that emphasizes operations and contextualizes all key aspects of OE.

Risk

Operational Sustainability® makes operational excellence simple.

Succeeding in today's complex, highly regulated industries depends on how well your company manages enterprise risk to minimize enterprise losses and enable continuous improvement without putting your privilege to operate at risk. Our industry-leading, cloud-based, highly configurable OESuite® software, supported by our world-class advisory services and technical content, enables your company to achieve and sustain **operational excellence**. With an average of more than 30 years of industry experience each, our advisors can design a solution tailored to your company's culture and needs.

Learn how Operational Sustainability® can accelerate your journey to operational excellence through our industry-leading OESuite® software platform, technical content, and our industry experts. See our full slate of free webinars, workshops, white papers, detailed module information, and scheduled workshops online at **www.DrivingOE.com.**
